### The old designated bags may no longer be used

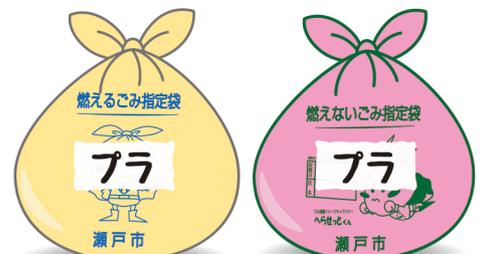

Starting Friday, September 1, 2023,

burnable and non-burnable waste left in old bags will no longer be collected.

Either use leftover old bags to put out mixed paper and cloth for recycling or discard them under the **new rules for plastic container and package waste.**

**\*Affix a piece of paper on which you have written “プラ”.**

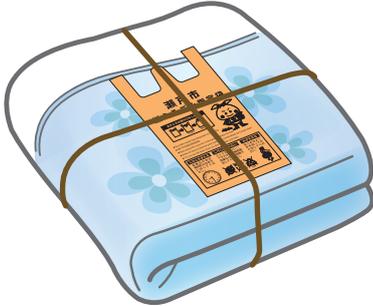

Thank you for your cooperation in reducing and recycling waste.

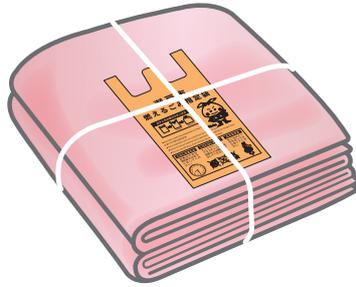

# New rules

## Bedding (including quilts), rugs, carpets (including heated carpets), and urethane mats

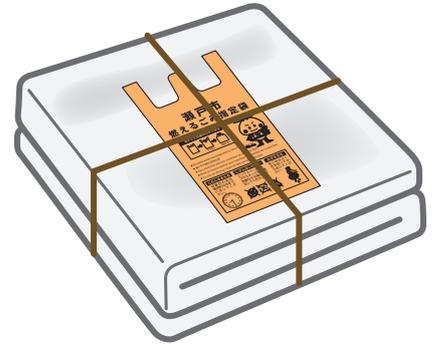

Fold into a bundle no larger than 1 meter per side, place a 45 L (“大”) garbage bag for burnable waste on top of the bundle, tie with twine, and leave at the burnable waste collection site.

Bedding

Rugs and carpets

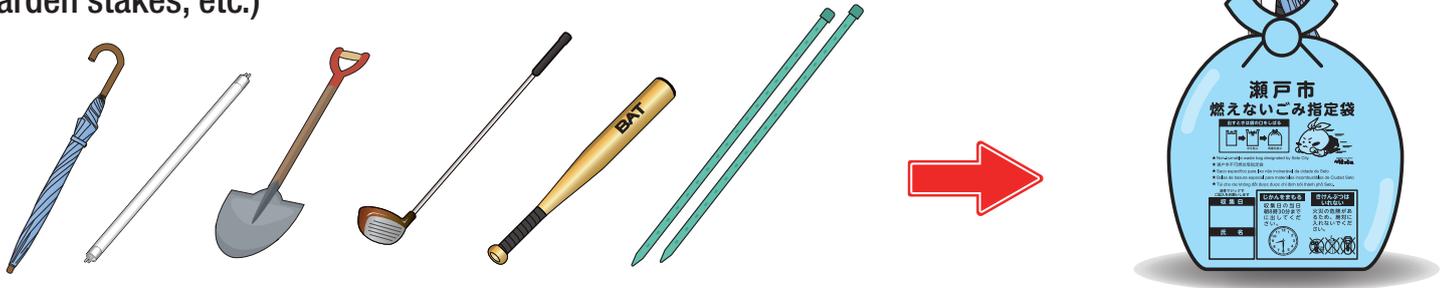

Urethane mats

## Long objects

Put out objects no more than 1.5 meters in length (i.e., small enough that the mouth of a non-burnable trash bag can be tied around them) as non-burnable waste, without disassembling them.

(Examples: Umbrellas, fluorescent light bulbs, shovels, golf clubs, metal bats, garden stakes, etc.)

## More about how to dispose of waste

threeR

The recycling app “threeR” has added information for Seto.

Residents are encouraged to make use of this convenient app, whose functionality includes the ability to search for instructions about how to dispose of various kinds of waste and receive notifications of collection dates.
